Dear HGF members and Newsletter readers,

the [HGF Online Spring workshop](#), organized on April 8 and 9, received positive feedback by participants. We would like to thank the HGF Board members Anne Nugent (Queen's University Belfast) and Stefano Rizzolini (Barilla) who contributed to the organization of this interesting programme. The presentations of the workshop are online and can be accessed in the [members' area](#).

Please **save the date for May 20** afternoon (time to be determined), for the next **HGF webinar on "Consumer concerns on Whole Grains / Healthy grain products"**.

Due to a low interest in the Horizon Europe Training programme, organized together with ICC and ISEKI, the activity needed to be cancelled for now. We will inform you when a new initiative will be taken to organize this programme.

Furthermore, please be informed that the [7th Whole Grain Summit](#) "*From Science to Global Application*" will be held as an online conference **from 25 to 27 October 2021**. The [call for abstracts](#) as well as the [EARLY BIRD Registration](#) are open now! Find all the details about the event any time at the conference website!

On **June 8-9** the first [food oats-conference](#) on "*Food oat innovations to boost food system sustainability*" will be organized. The conference will address the latest findings and innovations in oat based ingredients and food development, as well as the health impacts and consumer insights.

You are kindly invited to share your thoughts and comments on the HGF activities to the HGF board members. We are looking forward to your input.

Best Regards,

On behalf of the HGF Board

Nesli Sözer

Jan de Vries
