Dear HGF members and Newsletter readers,

First of all, we are proud to introduce to you [Milica Popović](#) from University of Novi Sad, Serbia. She will support HGF in the use of social media to communicate on interesting topics that concern HGF members. She has already introduced herself on the [HGF LinkedIn group](#).

May be good to be aware of: there are two HGF LinkedIn groups. To focus HGF's communication via LinkedIn, we will close the one with the smallest number of followers. In about 3 weeks this LinkedIn group will be stopped. If you are a follower of the smaller group, please change your interest to the one mentioned above.

#### **Spring Workshop 2022**

If you have missed the virtual workshop in April or you are interested to go through the presentations, you can find them behind your login credentials in the [members' area](#) on the HGF webpage.

#### **Working group activities**

At our last HGF Board meeting the discussion was focused on the planned working group activities. In the activity plan we have announced 2 working group activities to be started in 2022:

Co-creation with consumers: Recently there has been many review and research articles focusing on understanding the barriers hindering wholegrain consumption. The board intends to form a task force to identify the gaps in the consumer domain and plan next steps.

Sustainable grain production (connecting to the WGI WG on sustainability of whole grains): Definite topic and output tbd by the task force. Any interested member can get in touch with Jan de Vries ([nutritionolutions@me.com](mailto:nutritionolutions@me.com)) or Nesli Sözer ([nesli.sozer@vtt.fi](mailto:nesli.sozer@vtt.fi)).

Of course, please let us know if you have anything to share with your colleagues within HGF. Either of the board members can be easily contacted. You are kindly invited to share posts on the [HGF LinkedIn group](#).

On behalf of the HGF Board

Nesli Sözer

Jan de Vries
